DETAILED ACTION

In view of further search and the applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) The invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-8 and 10-13 are rejected under 35 U.S.C. 102(b) as being anticipated by EP 1 258 391 A2 Kaupp et al.

Kaupp discloses the same invention being an actuator for moving a shaft 24, the actuator comprising a housing 10 having a channel through its center with multiple inclined opposing surfaces 20, a pivotable actuator assembly having first and second spaced apart jaws 22. The jaws engage opposing inclined surfaces of the housing that allow them to be in a first nongripping position with a large dimension and a second gripping position where they engage the shaft and have a smaller dimension (figures 2a-2c). Kaupp further discloses another gripping surface 16 that is curved.

Response to Arguments

Applicant's arguments with respect to claims 1-8 and 10-13 have been considered but are moot in view of the new ground(s) of rejection.
